- Javascript, React.js, jQuery
- Wordpress, Node.js, Express.js
- Firebase, PostgreSQL, Knex.js

PROGRAMMING TOOLS

- GIT, NPM, Context API, Redux, other Devtools

EDUCATION

University of Minnesota - Twin Cities

Information Technology Infrastructure

- Graduated May, 2018

WORK EXPERIENCE

Blue42 Agency

Web Developer

- Design and develop front-end and back-end web architecture
- Analyze requirements and design, develop, and implement website and software applications for multiple websites
- Create websites based on the graphic designer's wireframe
- Test websites by performing user testing and troubleshooting prior to live deployment
- Practice creative problem solving to fulfill clients' website needs

PROFESSIONAL PROJECTS

THEMNTABLE

Delivering quality meals from our chef's Minneapolis kitchen to your doorstep!

- <https://themntable.com/>
- Integrated, aggregated, and automated print labels for orders and receipts, which save more than 40 hours on a monthly basis.

STUDENT ANGLER

Organization dedicated to increasing fishing opportunities and environmental awareness for students, youth, and schools.

- <https://studentangler.org/>
- Custom built with Wordpress ecosystems.
- Using Advanced Jotform and Toolset for handling dynamic data.

OMNIVIS

Create rapid detection technology that equips communities around the globe with the power and knowledge to protect their health.

- <https://www.omnivistech.com/>
- OmniVis makes handheld devices to rapidly detect for dangerous pathogens, anywhere in the world.
- Custom built with Squarespace.

ENTRYLEVEL.IO

Job aggregator for entry-level positions, targeting interns, student graduates, and career changers.

- <https://entrylevel.io/>
- Collaborative work to build a web-interface that achieves the vision of the design prototype
- Material-UI and React programming languages were used to develop modular and responsive interfaces
